

BLUE (DOG)

Large • Adult • Male • Dog

Weimaraner / Labrador Retriever / Mixed, Blue/Silver/Salt & Pepper

Up-to-date

Hi, I'm Blue, I am a gorgeous weimaraner/lab mix with beautiful dark blue grey fur which I'm told is quite unusual. I am 3-5 years old approximately and weigh 70 pounds.

My current foster mom found me on the side of the road in the cold weather and I was NOT in good shape. I was feeling really bad. I had every fecal worm imaginable, heartworms, ear mites and sarcoptic mange. I was skinny and losing my fur due to the mange. And I just itched all the time. I was miserable.

But now, I am on the road to recovery. I have been neutered, gotten all my shots, treated for the mange and mites (and my hair is growing back), and treated for all the worms including those nasty heartworms, and BOY am I feeling better.

I am now living with 3 other dogs. I like to play with them and I'm really good on a leash. I don't pull at all on walks. I had never been in a car
