Asia is a gorgeous black cat, about 10 months old. She is a manx, and has only a small stub for a tail, which makes her look very cute. She is a domestic short-hair with a silky all-black coat. She has a small tuft of a few white hair at her throat which gives her a bit of a comic look!

She is extremely loving and very intelligent. She has a calm and dignified air about her which immediately turns into a mischievous playful nature when she spots her furry toy mice and balls that she loves to chase around the room.

She was also rescued from the Irving shelter since she was slated to be euthanized. She has been treated for fleas, earmites and worms. She has been spayed and is current on all vaccines.

Contact her foster care giver, Aparna Rao, at 972-900-6847 or email her at aparna_rao@hotmail.com for more information.
