Emee was rescued along with Cagney from the street when they were about 10 weeks old. Her family has had a change of residence and must try to rehome this sweet girl.

She is declawed in her front paws and weighs about 7 or 8 pounds. Emee likes people but takes a while to warm up. She gets a little irritated with the other two (Cagney and Sebastian) sometimes and will randomly hiss and swat at them, but generally she is very sweet. She is referred to as the sweet baboo.

She is not at the shelter, so please call for an appointment to meet Emee.
