Jack - this beautiful short-haired cat is blue-hair and his gentle personality will charm you. Jack just may be most affectionate cat you will ever meet. He will happily rest his head on your lap and stay there most of the day, if you will let him! Won't you arrange to meet him soon? Jack is a big boy - he weighs 15 pounds! He is probably 8 or 9 years old. This tomcat most recently lived with a single person who gave him up for personal reasons. Jack would like nothing more than to find a comfortable home where he can play with a fishing pole or chase a paper ball, then curl up with his pet parent and purr himself to sleep!

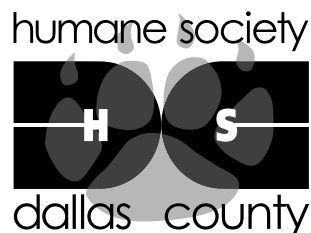

Jack needs a pet parent with some patience as he accustoms himself to unfamiliar surroundings, but in no time he will have made your house a home for both he and you. Jack is neutered and declawed.

Since he was an only pet, Jack is nervous around other dogs and cats. He needs to continue to be an only pet. But he loves us humans so
